

# ATM Safety

## **When using an ATM, be cautious and remember these safety tips!**

- Watch out for skimming
- Keep your card and password secure
- Be aware of your surroundings
- Complete your transaction before any other activity
- Check for suspicious devices
- Have your card and deposit slips ready
- Protect the privacy of your transaction
- Take your receipt
- Leave immediately after your transaction is complete
- Use the buddy system

Follow these tips to prevent others from obtaining your financial information.
